

April 18, 2007

I acknowledge and am ever grateful to Susan Topping Gauthier, my business coach.

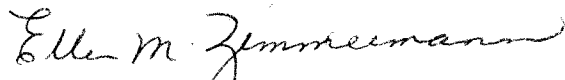

I have been in business coaching for 5 years and in that period my income has tripled and has consistently grown. This growth has allowed me to catch up my retirement savings, where five years ago I couldn't believe it possible.

Business coaching keeps me focused, intentional, balanced and happy. I have the secure feeling of partnership, friendship and camaraderie that wasn't there in my work environment before coaching.

Costs of coaching have been the best investment in my business. No marketing/advertising campaign has impacted my business success like coaching has, where my daily focus is first "who am I being?"

More and more with coaching, I feel consistent, anchored and balanced with my business, physical, financial, spiritual and personal relationships. Oh! Did I mention after being divorced for many years, two years into coaching I got married? No accident. Thank you, coach!

Sincerely,

Ellen M. Zimmermann
